SUMMARY

Final-year Computer Science student with two software engineering internships, strong DSA fundamentals and hands-on experience building scalable, cloud-native microservices on AWS.

EDUCATION

B.Tech in Computer Science and Engineering, National Institute of Technology (demo), 2022 - 2026, CGPA 8.9/10

EXPERIENCE

Software Development Engineer Intern - CloudKart Technologies (Jun 2025 - Dec 2025)

- Built and deployed 3 Java (Spring Boot) microservices on AWS (ECS, Lambda, SQS, DynamoDB) handling 2M+ requests/day.
- Cut p99 API latency by 38% by introducing Redis caching and optimizing PostgreSQL queries.
- Owned on-call rotation for one service; resolved 12 production issues using CloudWatch dashboards and alarms.
- Set up CI/CD pipelines with GitHub Actions; participated in design reviews and code reviews.
- Used GitHub Copilot and internal GenAI tools to speed up test writing and documentation.

Software Engineering Intern - DataNest Labs (May 2024 - Jul 2024)

- Developed REST APIs in Python (FastAPI) with MongoDB and PostgreSQL backends.
- Wrote unit and integration tests achieving 90% coverage; contributed technical documentation.

PROJECTS

Distributed Rate Limiter (Java, Redis, Docker)

- Designed a fault-tolerant token-bucket rate limiter with leader election; benchmarked at 50k req/s.

Open Source

- Merged 6 pull requests into popular open-source projects (bug fixes and docs) on GitHub.

SKILLS

Languages: Java, Python, C++, TypeScript, SQL
Cloud and tools: AWS (EC2, S3, Lambda, DynamoDB, SQS), Docker, Git, Linux, CI/CD, Redis, PostgreSQL, MongoDB
Core: Data Structures and Algorithms, Object-Oriented Design, System Design, SDLC, Debugging and troubleshooting

ACHIEVEMENTS

Solved 900+ problems on LeetCode (Knight badge); ICPC regionalist 2024.
AWS Certified Cloud Practitioner.
