Priya Nair

priya.nair@example.com | +91 90000 00002 | Pune, India | linkedin.com/in/priya-nair-demo

PROFILE

Computer Engineering graduate passionate about distributed systems and clean, maintainable code. Experienced with AWS, microservices and agile teams.

EDUCATION

B.E. Computer Engineering, Pune Institute of Technology (demo), 2021 - 2025, CGPA 8.4/10

EXPERIENCE

Backend Engineer Intern - FinPay Solutions (Jan 2025 - Jul 2025)

- Developed payment-reconciliation services in Go and Python deployed on AWS EKS using Docker and Kubernetes.
- Designed event-driven workflows with Kafka and SNS/SQS; improved job throughput by 45%.
- Added monitoring with Prometheus and Grafana; troubleshot production incidents and wrote post-incident reports.
- Followed agile and CI/CD practices; reviewed teammates' pull requests weekly.

Junior Developer (Part-time) - Campus Tech Cell (2023 - 2024)

- Maintained college placement portal (Node.js, MySQL) used by 3,000+ students.

PROJECTS

Real-time Chat Platform (Go, WebSockets, Redis, AWS)

- Scalable chat backend supporting 10k concurrent connections; load-tested with k6.

URL Shortener (Java, Spring Boot, DynamoDB)

- Highly available service with consistent hashing and caching; deployed with Terraform.

SKILLS

Languages: Go, Python, Java, C++, SQL
Databases: PostgreSQL, MySQL, MongoDB, DynamoDB, Redis
Tools: AWS, Docker, Kubernetes, Git, Terraform, Linux, GitHub Actions
Strong in DSA, OOP, design patterns, system design basics

OTHER

Contributor to two open-source Go libraries. 450+ LeetCode problems solved. Uses AI coding assistants daily for productivity.
